FURNITURE

Geometric style

Ziad Alonaizy was an orthopedic surgeon before retraining as an architect, and in 2018 he established his eponymous furniture atelier and design studio. His Aegis collection was inspired by the idea of a birdcage that has been prized open—handcrafted in Italy, the pieces are characterized by an exquisite lattice structure. The collection features coffee, side, and martini tables plus a console and mirror, all available in five metal finishes. alonaizy.com
